RedMoon Studios enters partnership with the Polish web portal Wirtualna Polska.

RedMoon Studios is expanding its presence in the international market. In addition to the many recent international introductions of its own games, RedMoon Studios has succeeded in finding major new cooperation partners.

RedMoon Studios, a developer and provider of browser-based online games (Browser games) is continuing its eastward expansion.

Starting immediately, RedMoon Studios games will be available on the Polish web portal Wirtualna Polska (www.gryonline.wp.pl). This cooperation is another step in the international expansion of RedMoon Studios, joining recent agreements made with companies operating in Brazil and China. Wirtualna Polska has been one of the largest and best-known entertainment portals in Poland since 1995.

Players can now enjoy top entertainment from RedMoon Studios games on the portal without downloading any software.

The creation of major new international partnerships shows that the combination of entertainment and user friendliness inherent in RedMoon Studios' games is also viable internationally.
